

K-Love is an encouragement to myself and my family and it impacts our lives and those around us greatly. This is the only station I can trust to have family friendly content.

All other radio stations are filled with filth already allowed by the FCC, and are pushing the limits for what little the FCC does restrict.

There is no question that K-love is a good thing for our community and is in the best public interest. How else could a listener supported K-love survive, unless the community supported it?

Please do not allow any LPFM broadcaster reduce or eliminate the services provided by K-love. I'm not sure of the benefits of LPFM, but if K-love has to suffer for it then it is not worth it.

If LPFM has to proceed for some reason, then at least find an equitable solution to keep K-love in our community. Thank you for your time.
